About Fulgent

Fulgent is a technology-based genetic testing and therapeutics company focused on transforming patient care in oncology, infectious and rare diseases, reproductive health, and pathology. Its proprietary technology platform for genetics has created a broad, flexible test menu and the ability to continually expand and improve its proprietary genetic reference library while maintaining accessible pricing, high accuracy, and competitive turnaround times. Fulgent's therapeutics business is fully focused on developing drug candidates for treating a broad range of cancers using a novel nanoencapsulation and targeted therapy platform designed to improve the therapeutic window and pharmacokinetic profile of new and existing cancer drugs. The company aims to transform from a genomic diagnostic business into a fully integrated precision medicine company focused on oncology.
